DETAILED ACTION

The amendment filed December 14, 2004 has been received.

The text of those sections of Title 35, U.S. Code not included in this action can be found in the prior Office action.

35 USC § 112

1st and 2nd Paragraphs

The rejection of claim 1 under 35 U.S.C. 112, first and second paragraphs, (dated September 20, 2004) is withdrawn in view of Applicants' amendment.

Claim Rejections - 35 USC § 102

Claim 1 remains rejected under 35 U.S.C. 102(b) as being anticipated by the European Plant Breeder Right (PBR) application number 19990065 filed on January 29, 1999 and published on April 15, 1999, more than one year prior to the filing date of this instant application, taken in view of Applicants admission that the claimed cultivar was first available for sale on July 16, 2001 (IDS filed on April 15, 2004).

Claim 1 remains rejected under 35 U.S.C. 102(b) as being anticipated by the European PBR application number 20000291 filed on February 24, 2000 and published on April 14, 2000 (note: there was a typographic error on the published day of the previous Office Action stating "4" when actually the day should be "14") and grant number 7939 dated July 16, 2001 and published October 15, 2001, more than one year prior to the filing date of this instant application, taken in view of Applicants admission that the claimed cultivar was first available for sale on July 16, 2001 (IDS filed on April 15, 2004).

Response to Arguments

Art Unit: 1661

Applicants' remarks filed December 14, 2004 have been fully considered but are not considered persuasive for the following reasons:

Applicants argue that for seventy years the Patent Office has never suggested that the sale or public availability of a plant outside of this country enables a publication filed more than one year prior to the filing of that application, and that the Office has made a policy change without appropriate procedures under USC Title 5 Federal Administrative Procedures Act (FAPA). This argument has been fully considered, however, is not persuasive because the examination process is an adjudication, not a rule making.

Because none of the arguments support Applicants' conclusion that a foreign breeder's right certificate over a year prior to domestic filing cannot be a bar under 35 USC § 102(b), even where Applicants made the plant stock available to the public, albeit outside this country, over a year prior to domestic filing, the applicability of a rejection, where both of these conditions arise, under 35 USC § 102(b) is maintained.

Conclusion

No claim is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1661

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
